- **Book Bank Facility :**Yes we have book bank facility for students, under MUHS for Economically needy students and Backward class student welfare fund

Integrated Library Management System (ILMS)

Library is automated using Integrated Library Management System (ILMS).

1. We are using '**Softlib'** Integrated Library management software by 'Synchronik' developed by Software Company located in Nagpur. The software is integrated with ERP software currently used in institution.
2. We are using this software since the year, 2002 satisfactorily for all our in house Library operations. The software is upgraded & updated time to time.
3. This software provide various features like: Accessioning, Cataloguing, Cardex, Member Category, Member Master, Circulation, OPAC, Reservation, Administration, Maintenance, Backup & Recovery, Reports, AACR 2, Printing, Accession Register Printing, Bulk Entry System Monitoring, Correspondence letters, Institute Information, Holiday Entries, Penalty Module, Library at a glance, Photo ID card & Email system.
4. We are manually entering material information in accessioning module in library software as well as in Manual Accession Register.
5. Cataloguing is automatically done by the Software.
6. Serial Control is the serials or journals information entry; the SDI services can also be initiated through this module.
7. Member Category is the set of rules for all the Library users & members.
8. With the use of RF ID tags, RF ID Identity Cards & kiosks the process of Circulation is now fully automated and Self Check in & Self Check out of Library books can be done. This whole process is automated & secured by RF ID Gate which blow siren when unauthorized material is passed through it but it allow the material which are properly gone through the process.
9. Web OPAC & M OPAC is available for users to search the materials in the Library with current status.
10. Reservation of non available books can be done
11. Various users having different roles can be provided through Administration system to control the access of software.
12. Many Maintenance activities like updating the status of the materials, sending materials for binding etc. can be done from this module.
13. Automated & manual Backup & Recovery from the backup in case of system failure.
14. Various Reports in printable formats can be generated like Barcode for material, Barcode photo ID card for every member, Periodicals reports, Member reports, Acquisition reports, Materials Reports & Committee Reports in graphical formats etc.
15. Accession Register Printing.

16. RF ID identity cards printing facility
17. Bulk import of some data is also possible.
18. Monitoring of day-to-day activities like today's transactions, check-ins, check-outs etc is done in Administration.
19. Holiday Entries can be done one time in the beginning of the year and can be entered as & when required; this will help for automatic calculation of fines if any & other activities.
20. Penalty & late fine calculation is done on the basis of pre-set rules. User level account for this fines & penalties are maintained.
21. Various master like Suppliers, Publishers etc. can be maintained.
22. Help system for proper functioning in the software is available for users which explain the depth information with example its limitation & points to take care etc. are mentioned.
23. Facility to attach digital media like Videos, Audio, Image, pdf etc. is available at the time of accessioning, serial control & cardex and available to user to access it from OPAC
