## *Dean's Message*

**Dr. Kajal Mitra**

**Dean**

**1.04.2015 - 20.05.2024**

**NKPSIMS & RC and LMH**

*Growth is not only a matter of achieving or learning new things but also of unlearning old limits. NKPSIMS & RC and LMH set out with new and challenging targets for 2023-24 and accomplished them too! The major achievements being Inauguration of Ranjeet Deshmukh Superspecialty Annexe at the hands of Dy. Chief Minister Shree Devendra Fadnavis and NAAC A+ in first cycle with 3.39 CGPA in NAAC accreditation. The annual report 2023-24 is the apt mode of showcasing those fulfilments.*

*As a medical institute, we need to focus on academics as well as on patient care. I am extremely satisfied that the management, administration, faculty, students and non-teaching staff contributed with utmost dedication and commitment and helped the institute to soar high in the direction of our vision and mission.*

*On this auspicious occasion of the 78th Independence Day I extend my best wishes to all and hope that we keep rising our standards and work together for a better and healthier future of our institute and of our nation. We have miles to go before we sleep.....*

*Lastly I congratulate Dr. Trupti Dongre and the entire Editorial team of the Annual Report for wonderfully highlighting all the feathers of the NKPSIMS' cap in the last one year.*

## *From the Editor's Desk*

Hearty Warm Welcome! to the Annual Report 2023-24.

I must at the outset express my immense gratitude to our learned and respected Dean, for entrusting me with the arduous responsibility of Editorship of the Annual Report for the year 2023-24. A responsibility demanding and exhausting indeed, yet something that each of one us perhaps would merrily wish to be tasked with and cherish.

The Annual Report to my view is in essence an 'Organic Compendium', echoing – firstly the rich legacy of the Institution, secondly the relentless toils of 'one and all members' of Institution who in their respective capacities strived for the accomplishment of the Institutional Ideals of 'Excellence in Education and Research' and 'Exemplary Patient Care', and, lastly an 'Unconquerable Resolve' of marching ahead on those very Ideals and taking the Institution to newer heights in times to come.

To supervise its preparation has indeed been an honor and an experience – engaging, fulfilling and unparalleled.

That having been said, I must extend my heartfelt gratitude to Dr. Mohana Majumdar (Chairperson of Annual Report and Director IQAC) for her constant support, valuable guidance, timely input and also for the beautiful cover design. I am also grateful to Dr. Harsh Salankar, my predecessor Editor and Prof. Dr. Sabiha Maimoon my Departmental Head. I then extend my warm gratitude to the Learned Departmental Heads of all the Departments, my esteemed colleagues (senior and junior) across all Departments for their enlightening contributions. Further, I must admit to the 'scarcity for words' by which I may acknowledge the unrelenting, thoughtful and timely efforts of my entire editorial team, especially Dr Vidula Gowardhan. My earnest appreciations to photo artist Mr. Anil Mamilwar, Mrs. Julie Bharbat and Ms. Karishma Rana. It is my humble acknowledgement that but for such timely guidance's, contributions and hard-work, the accomplishment of the task entrusted to me would not have been possible and therefore I extend my heartfelt appreciations to all.

Last but not the least, I acknowledge and appreciate the three pillars of strength in this journey of mine, namely, my husband Dr. Amol Dongre and my 'Two Angels – Aarohi and Abhigyan'.

May the journey through Compendium be joyous and enriching to 'One and All'!

**Dr. Trupti Dongre**  
**Editor, Annual Report – 2023-24.**

## N. K. P. SALVE INSTITUTE OF MEDICAL SCIENCES & RESEARCH CENTRE

The Institute was established by Vidya Shikshan Prasarak Mandal Academy of Higher Education (VSPMAHE) on 22/06/1990 and completed its silver jubilee celebrations in 2015. The Institute has been named after an eminent economist & Ex central government minister, honorable Late Shri NKP Salve. Initially it was established at Sitabuldi and then shifted to Digdoh Hills, Hingna Road.

Over the years it has grown as one of the premier medical institutes of the country offering medical education of high standard and quality health care. NKP SIMS & RC has attained a prestigious status due to the personal interest and strenuous efforts taken by the committed team. - Founder Shri Bhausahab Bhoge, Honorable Chairman, Mr. Ranjeet Deshmukh, Dr. Ashish Deshmukh, Dr. Amol Deshmukh and Dean Dr. Kajal Mitra. Together with other professional team members in place for the smooth running, this medical institution has seen sustained growth.

The institution had started off with the aim to fill in the additional need of medical education in the region and to be able to deliver health services. The institution was also keen on being recognized as a reference point.

The institution is spread over 68 acres of land on the periphery of the city and sits amidst open natural setting. From a single storey structure, it is now a group of buildings housing the varied departments.

The institute is affiliated to the Maharashtra University of Health Sciences, Nashik, and the apex body is the National Medical Commission (NMC) New Delhi. Recently the institute has got permission from NMC for admission of 200 MBBS students per year. The institute is having 19 Post Graduate Degree courses, currently has intake of total 141 PG seats every year, 2 Super Specialty Courses (M. Ch.), PhDs in 9 disciplines and 1 Certificate (Fellowship) Course per year. The institute got accreditation of NABH in 2019, NABL in January 2021 and NAAC in August 2021.

This year the institute achieved a milestone by completing the re-assessment of NAAC accreditation and securing A+ in the very first cycle.

The Pre and Para clinical departments are located in the spacious double storied building complex. The clinical departments are housed in the spacious well equipped hospital adjoining the college. The hospital has 1058 beds and 117 Critical Care beds attached to the college. The new SuperSpecialty Hospital was inaugurated in December 2023 at the hands of Dy. Chief Minister Shri Devendra Fadnavis.

The Institute has established the Research cell and MET Unit (MCI and MUHS recognized) in 2009, keeping in mind the promotion of research activities. The institute has an academic indexed journal 'Panacea, the Journal of Medical Sciences' and exclusive educational technology, multidisciplinary, indexed journal, 'Journal of Education Technology in Health Sciences' (JETHS). The institute also publishes annual news bulletin Reflections "of MET unit and Quarterly campus newsletter" Splash". The institute is also recognized and awarded by the UNESCO Chair of Bioethics in 2016.

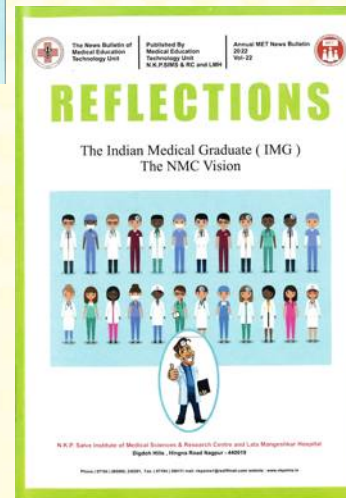

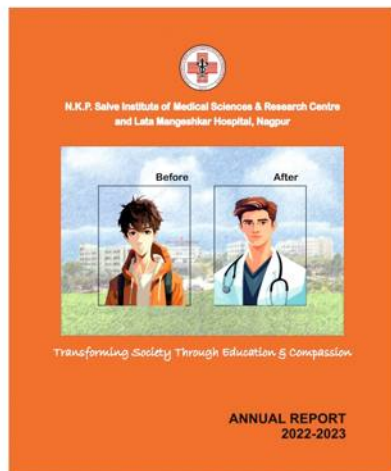

The infrastructure and teaching programs comply with the requirements of the regulating council. Various innovations like BLS and ACLS training, Communication and Clinical Skills Laboratories, Faculty Development Programs, Anubandh, a mentorship program, Lifestyle Modification Centre, etc., provide a new sense of direction to the institute.

All the departments, including preclinical and clinical, are fully equipped as per the norms laid down by NMC. The lecture halls are well furnished with availability of audio visual aids and smart board facility in each of them. The college auditorium 'Matoshree' has a hall of seating capacity 1000. The institute has a state of art Central Library, Cafeteria and Gym.

Qualified, experienced and dedicated faculty are the pride of the institution. Students are admitted through National Eligibility Entrance Test of Government (NEET). Every year sees sincere, goal oriented and keen youngsters entering the portals to excel in a include sports, cultural fests, debate, drama, and music. The institution turns them into all-round professionals who are always ready to utilize their skills for the under privileged.

Faculty and students are encouraged to present their work in conferences and workshops during the academic session. Most of the research papers are published in indexed journals of national and international repute. The institute has hosted several national conferences, workshops and CMEs. In this context, NKPSIMS is proud to mention its Internal Quality Assurance cell (IQAC) and Medical Educational technology (MET) Unit, which is instrumental for improving the teaching standards, inculcating the spirit of research in the students as well as the staff and updating medical science through publication of journals-both in print and electronic. Its efforts are visible by the exponential rise in research activities and publications from this institute in the last decade. NKP SIMS believes in academic excellence as well as personal mentoring of students to prepare them to achieve great heights and face the challenges in today's competitive world.

Undergraduate Cell was instituted in 2009. UG Cell of NKP SIMS primarily maintains record of attendance and academic performance of MBBS students.

UG cell also believes in overall growth of each individual MBBS student. Keeping this in mind it also organizes co-curricular activities in the form of communication skills workshops, personality development programmes, anti-ragging activities along with MET Unit.

UG cell NKPSIMS & RC organizes regular parents teachers meetings for all MBBS students where parents are taken into confidence about their ward's attendance and academic performance.

UG cell is taking all the efforts to keep the NKPSIMS campus ragging free, along with the anti ragging committee of the college.

## POST-GRADUATE CELL

### DR. N. V. DEOSTHALE AND DR. M.V.SAWANE

A separate post graduate Cell has started functioning in this institute since 2005 with a focus on imparting value based education with an objective to develop excellent qualities of an academicians, a clinical specialist, a teacher and a researcher and with an aim to help students in their university related needs.

Post graduate courses were started at NKPSIMS in the Pre and Para clinical departments from the academic year 2004-05 and they were recognized by MCI in the year 2007. PG courses were then started in most of clinical departments from 2007. Institute progressed rapidly with further increase in PG intake in almost all subjects during last 4-5 years. Currently there are 143 MD/MS PG seats in the institute including M.Ch. in Plastic surgery and Pediatric surgery. All the PG seats are recognized by NMC and we are now in the process of increasing another 31 PG seats in clinical departments from academic year 2025-26.

PG Cell works very hard for successful preparation of various documents required for different inspections and for actual conduct of inspections.

Admission procedure is conducted by the PG cell with submission of data to all the regulatory bodies. The Cell is trying its best to give hassle free administration so that students should not have problems with their eligibility in university as well as synopsis approval and other administrative works.

New entrants in this institute require introduction and orientation to the working conditions and training pattern and approach to the research, which is new to most of the students. A post graduation orientation course for newly admitted students is conducted every year after completion of admission process. This orientation program covers various important topics like code of conduct, timing and working pattern, routine OPD and ward working, working in specialized unit like ICU, blood transfusion, casualty working guidelines for hospital wastes segregation, standard operating procedure of ethics committee etc, Clinical research is an emerging area with enormous potential for the future development.

Government of Maharashtra's District Residency Program for PG students is also coordinated by PG Cell, a batch of 117 PG students have already completed their District Residential Program from May 2023 to April 2024.

PG Academic Committee is working actively to improve overall PG training at the institute. This committee plans the curricular changes for improvement of PG results and is regulating interdepartmental postings and is responsible for arranging various skill impartment training programmers for PG students. PG results of the institute have improved significantly in last few years.

To further improve the research output of the institute and increase the research experience of PG students, PPP (Poster, presentation, publication) model has been accepted in our institute.

Internal assessment pattern has also been improved with inclusion of six-monthly theory examinations and improvement PG log books.

With increasing PG intake and related administrative work, PG cell has been working well since the inclusion of Dr. Harsh Salankar and Dr. Sonali Khadakkar as Dy. In charge PG Cell.

PG Cell is committed to inculcate discipline in the students with the help of respective unit in-charges and Head of the Departments. All the departments have always helped PG cell in this effort and we are very sure about their cooperation in future also.

### REPORT -

In view of the addition of some of the academic activities in the standard assessment form of National Medical Commission, like didactic lectures for PG students, the PG activity was revised for all the clinical subjects and all the heads of the department were instructed to include didactic lectures as important part of PG training. Competency based curriculum was implemented in all departments including students quarterly appraisal.

### **Role of Pharmacovigilance Committee**

With several new drugs being regularly approved for marketing in India, there is a need for a vibrant Pharmacovigilance system in the country to protect the population from the potential harm that may be caused by some of these new drugs. Besides, with the patent regime coming into force in 2005, it is widely believed that India would become a center for new drug trials. India is a vast country with a multi-ethnic population, so it is necessary to have a viable Adverse Drug Reaction (ADR) Data capturing system. The India Central Drugs Regulatory Authority, proposed a Pharmacovigilance program to:

- 1 Contribute to the regulatory assessment of the benefit, harm, effectiveness and risk of medicines, encouraging their safe, rational & more effective (including cost-effective) use.
- 2 Improve patient care & safety in relation to the use of medicines and all medical & paramedical interventions,
- 3 Improve public health & safety in relation to the use of medicines,
- 4 Promote understanding, education & clinical training in Pharmacovigilance & its effective communication to the public

### **Drug Audit Committee**

Prescribing errors are common, they may result in adverse events and harm the patients. It is unclear how best to prevent them because recommendations are more often based on surmise than collected data. These include lack of training or experience, fatigue, stress, high workload for the prescribers and inadequate communication between healthcare professionals, Latent conditions include reluctance to question senior colleagues and inadequate provision of training. Prescribing errors are often multifactorial, with several active failures and error-provoking conditions often acting together to cause them. Seeking potential ways of reducing error, needs to be conducted, and Multifactorial interventions across many parts of the system are likely to be required.

### **Role of “Drug Committee”**

1. To monitor prescription practices.
2. To provide “Drug information services” in conjunction with the Pharmacovigilance program.
3. To maintain a collection of CIMS, MIMS, Pharmacopeias, E-journals.

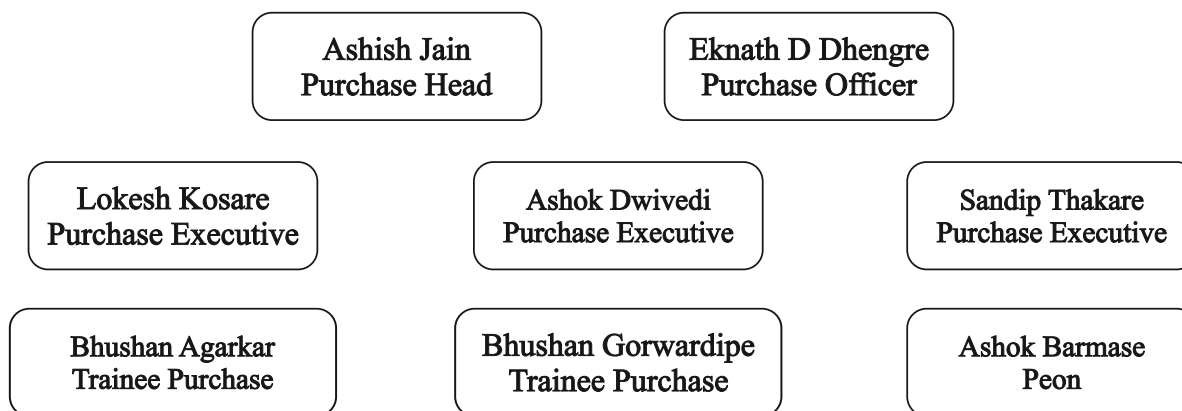

## **PURCHASE COMMITTEE**

In the procurement process, there are four major goals of purchasing: maintain the right supply of products and services, maintain the quality standards of the operation, minimize the amount of money the operation spends, and stay competitive with similar operations

The Purchase Committee being a bridge with users, purchasers & vendors, the task becomes even more difficult in finalizing the right product or service. The Purchase Committee has procured machines & services of more than Rs. 30 Crore in the last financial year (2023-2024).

**Committee has so far executed & contributed to major cost saving for the organization.**
