

Artificial Intelligence in medicine....are we there yet?

Alumni association, NKP Salve Institute of medical Sciences & Research Centre and Lata Mangeshkar Hospital organized a lecture by our Alumnus, Dr. Abhinav Deshpande, MS, MCh Surgical Oncology, FIAGES, Fellowship in Robotic Oncosurgery. He has done advanced training in Robotic surgery at California, USA and Severance Hospital, Seoul, South Korea. He won the Peoples Choice award for research work on robotic port placement at Memorial Sloan Kettering Cancer centre, New York USA in November 2018. He was selected for travel fellowships and presentations at various conferences held at Amsterdam, Netherlands, Lisbon Portugal, San Francisco & New York, US and Seoul South, Korea. He is a UG alumnus of 2003 batch.

Dr. Abhinav delivered a lecture on “Artificial Intelligence in medicine...are we there yet?” on 24th January 2024. All the post graduate students attended the lecture. Dr Mohana Majumdar welcomed the gathering. Dr Kajal Mitra, Dean NKPSIMS & RC and LMH, highlighted the waxing and waning phases of AI and described its role in present day Radiodiagnostics. Dr Abhinav Deshpande gave detailed information of the various fields in medicine where AI has already penetrated. He showcased videos of robotic surgeries successfully done by him. He also emphasized that although AI will play an important role in diagnostics and therapeutics, it is still a long way before it can match up-to the healing touch of a doctor. Dr Arti Kasurkar proposed the vote of thanks. Dr Shilpa Hajare. coordinated the event with the help of members of Alumni association.
