## *Dean's Message*

*My humble greetings on 79th Independence Day of our country Bharat. 15th August 1947, our country Bharat was freed from the brutal and suppressive colonial rule. The tricolour was unfurled on the Red Fort. Ever since then Bharat struggled to establish itself as a powerful independent and sovereign country. With many challenges ranging from the challenge of the partition to the growing menace of terrorism, India fought many wars and proved that the country has the invincible will to remain together. Our recent success in the war with neighbouring country proves the competence and grit of our armed-forces (Operation Sindoor).*

*We salute all our heroes fighting in front, who are keeping our lives safe and secure. Bharat has made significant development and is now a global power.*

*Our esteemed institute N.K.P. Salve Institute of Medical Sciences & Research Centre and Lata Mangeshkar Hospital has been serving the society since last 34 years. It has created a niche in the field of academics and health care. The institute is known for many achievements in last few years, which includes successful Kidney Transplant, beginning of Liver Transplant facility, Cochlear Implant, Cadaveric Lab, Cancer Mukta Abhiyan in neighbouring Saoner Taluka, Hip & Knee Transplant etc. In the forthcoming year we are determined to begin Cardiac Surgery, Stroke Unit, IVF, Oncology including Radiation, Hyperbaric Oxygen & Superspeciality Courses.*

*We are proud to say that the students of N.K.P. Salve Institute of Medical Sciences & Research Centre and Lata Mangeshkar Hospital have shown exceptional performance in the field of Research.*

*I congratulate Editorial Board, headed by Dr. Trupti Dongre, Asso. Prof. Pathology. I am sure this Annual Report will motivate many to excel in their field.*

*My greetings to all my fellow colleagues on “ the independence day.”*

*It gives me great pleasure to present this year's Annual Report, a reflection of our shared journey, collective efforts, and the resilience that has defined our organization over the past year. As we look back, we are proud not only of the achievements we've marked, but also of the challenges we've overcome together.*

*This year has been one of transformation and renewed purpose. From setting ambitious goals to implementing innovative strategies, every step we took was grounded in our commitment to excellence, accountability, and sustainable growth. I would like to extend my heartfelt gratitude to our dedicated team, students, their parents and patients who have continuously supported and strengthened our mission.*

*As we move forward, we remain focused on our core values and long-term vision. The path ahead is filled with opportunities—and we are prepared to embrace them with the same dedication that brought us this far.*

*Thank you for being an integral part of our journey.*

*I congratulate the Editorial Team, headed by Dr. Trupti Dongre, Asso. Prof. Pathology, for bringing out this Annual Report 2025.*

## *From the Editor's Desk*

Warm greetings to one and all !

It is with immense pleasure and a great sense of fulfillment that I address you once again for the second year in succession as the Editor of our Institutional Annual Report 2024-2025. As the Editor, it has indeed been a privilege and a profound and enriching journey personally, and, I express my heartfelt gratitude to our learned and respected Dean Dr. Sajal Mitra for re-entrusting me with the responsibility of supervising the preparation of this Annual Report.

Reflecting back, I brim with pride at the collective progress of the Institution in all facets of its competences. This report indeed is a compendium of the 'Ever-evolving Intellectual and Personality Dynamics' of the Institution and its Organic Apparatuses that give life to it, namely, the students, faculty, administration, management and the alumni. The Annual Report serves as a bridge connecting one and all of the Institution enabling exchange of intellectual treasures.

The Annual Report is in essence a narrative of all those sentiments making 'one and all of us' within and beyond our clinical and academic rigors and routines.

I take this opportunity to extend my deepest gratitude to Dr. Mohana Majumdar (Chairperson of Annual Report Editorial Team) for Cover Page Design and Constant Guidance, Prof. Dr. Sabiha Maimoon (my Departmental Head), to the Departmental Heads of all the other departments, my Esteemed Colleagues across all departments for their support and valuable inputs. My humble appreciations to my entire editorial team and photoartist Mr. Anil Mamilwar, Mrs. Julie Barbat for their valuable, relentless and timely contributions. My humble acknowledgements to one and all, for enabling me to accomplish this task entrusted to me. And lastly, my affection to the three pillars of strength in my life – my angels 'Abhigyan and Aarohi' and my husband Dr. Amol Dongre. Thank you all for being a part of my journey !

I hereby retreat with an earnest and heartfelt invitation to 'one and all',  
“for your constructive engagement herein”.

Here's for another year of collective learning and evolution.,

Warm Regards,

**Dr. Trupti Dongre**

## N. K. P. SALVE INSTITUTE OF MEDICAL SCIENCES & RESEARCH CENTRE

The Institute was established by Vidya Shikshan Prasarak Mandal Academy of Higher Education (VSPMAHE) on 22/06/1990 and completed its silver jubilee celebrations in 2015. The Institute has been named after an eminent economist & Ex central government minister, Honorable Late Shri NKP Salve. Initially it was established at Sitabuldi with a commitment to “Health - Nation's Wealth” and then later shifted to Digdoh Hills, Hingna Road in 1993.

Over the years it has grown as one of the premier medical institutes of the country offering medical education of high standard and quality health care. NKP SIMS & RC has attained a prestigious status due to the personal interest and strenuous efforts taken by the committed team. Founder Shri Bhausaheb Bhoge, Honorable Chairman, Mr. Ranjeet Deshmukh, Dr. Ashish Deshmukh, Ex-Dean Dr. Kajal Mitra and present Dean Dr. Sajal Mitra. Together with other professional team members in place for the smooth running, this medical institution has seen sustained growth.

The institution has started off with the aim to fill in the additional need of medical education in the region and to be able to deliver health services. The institution was also keen on being recognized as a reference point. The campus is spread over 68 acres of land on the periphery of the city, sits amidst open natural setting. From a single storey structure, it is now a group of buildings housing the varied departments.

The institute is affiliated to the Maharashtra University of Health Sciences, Nashik, and the SRA (Statutory Regulatory Authority) is the National Medical Commission (NMC) New Delhi. The institute has got permission from NMC for admission of 200 MBBS students per year and this year it has applied for 250 seats and has been inspected and is awaiting permission from NMC. The institute is having 19 Post Graduate Degree courses, currently has intake of total 141 PG seats every year. This year the institute has applied for increase in PG seats by 25 seats in 6 departments. NMC has conducted inspections and permission is awaited. The institute also has 2 Super Specialty Courses (M. Ch.), PhD in 9 disciplines and 3 Fellowship programs per year. The institute got accreditation of NABH in 2019, NABL in January 2021 and NAAC in May 2024.

This year the institute achieved a milestone by completing the re-assessment of NAAC accreditation and securing A+ in the very first cycle with CGPA 3.39.

The Pre and Para clinical departments are located in the spacious double storied building complex; The clinical departments are housed in the spacious well-equipped hospital adjoining the college. The hospital has 1138 beds attached to the college.

Recently cadaveric laboratory was made functional and several workshops are held on a regular basis. The Institute has established the Research cell and MET Unit (MCI and MUHS recognized) in 2009, keeping in mind the promotion of research activities. The institute has an academic indexed journal 'Panacea, the Journal of Medical Sciences' and exclusive educational technology, multidisciplinary, indexed journal, "Journal of Education Technology in Health Sciences" (JETHS). The institute also publishes annual news bulletin “Reflections” of MET unit and Quarterly campus newsletter "Splash". The institute is also recognized and

the infrastructure and teaching programs comply with the requirements of the regulating council. Various innovations like BLS and ACLS training, Communication and Clinical Skills Laboratories, Faculty Development Programs by Medical Education Technology (MET) Unit, Anubandh, a mentorship program, Lifestyle Modification Centre, etc., provide a new sense of direction to the institute. In January 2022, the institute got license from American Academy of Family Physician (AAFP) for conducting Basic Life support in Obstetrics (BLSO) and Advanced Life support in Obstetrics (ALSO) courses for training of staff sisters, Residents and faculties in Obstetrics and Gynaecology, so as to improve maternal and neonatal outcome.

All the departments, including preclinical and clinical, are fully equipped as per the norms laid down by NMC. The lecture halls are well furnished with availability of audio visual aids and smart board facility in each of them. The college auditorium 'Matoshree' has a seating capacity of 1200. The institute have a state of art Central Library, Cafeteria and Gym.

Qualified, experienced and dedicated faculty are the pride of the institution. Students are admitted through National Eligibility Entrance Test of Government. (NEET). Every year sees sincere, goal oriented and keen youngsters entering the portals to excel in academics with distinctions, awards and medals. They participate in extracurricular activities that include sports, cultural fests, debate, drama, and music. The institution turns them into all-round professionals who are always ready to utilize their skills for the under privileged.

Faculty and students are encouraged to present their work in conferences and workshops during the academic session. Most of the research papers are published in indexed journals of national and international repute. The institute has hosted several national conferences, workshops and CMEs. In this context, NKPSIMS is proud to mention its Medical Educational technology (MET) Unit, which is instrumental for improving the teaching standards, inculcating the spirit of research in the students as well as the staff and updating medical science through publication of journals-both in print and electronic. Its efforts are visible by the exponential rise in research activities and publications from this institute in the last decade. NKP SIMS believes in academic excellence as well as personal mentoring of students to prepare them to achieve great heights and face the challenges in today's competitive world.

## Our Vision

To establish NKPSIMS & RC and LMH as a **globally** competent and leading health education institute providing equal opportunities of becoming **competent health professionals** through quality medical education, promote need based research and provide comprehensive yet **affordable health care services** to the society, preserving ethics and values of the institute.

## Our Mission

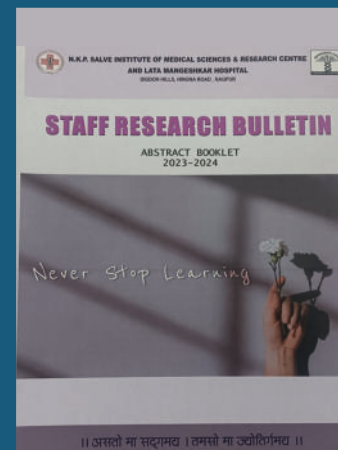

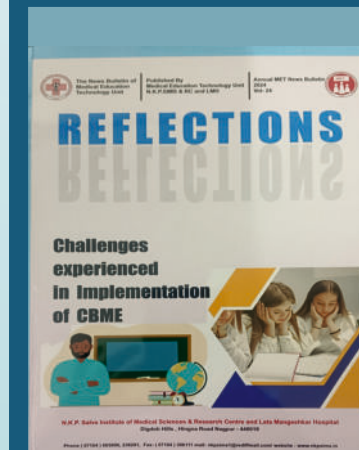

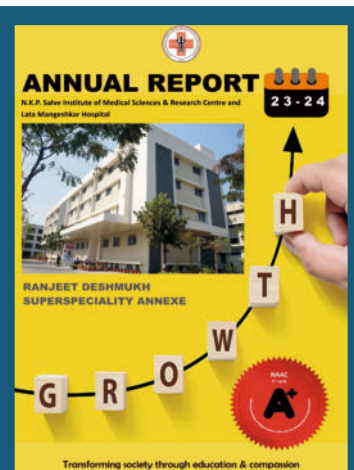

NKPSIMS & RC and LMH, through value driven leadership, shall strive to develop confident, compassionate, and globally competitive health professionals **who are sensitive to the needs of the society** and who will make a positive difference to lives across the globe.

It shall rely on modern teaching technology with holistic approach to **impart quality higher education using competency based**, enquiry driven active learning principles to produce competent health professionals.

It shall engage in conducting meaningful **research** with relevant local, national and global partnership that will foster quality health care in the community.

It shall commit to deliver preventive, promotive and curative **health care services to both rural and urban population** of the society and create health awareness amongst masses through its outreach activities.

Undergraduate Cell was instituted in 2009. UG Cell of NKP SIMS primarily maintains record of attendance and academic performance of MBBS students.

UG cell also believes in overall growth of each individual MBBS student.

UG cell NKPSIMS & RC organizes regular parent's teachers meetings for all MBBS students where parents are taken into confidence about their wards attendance and academic performance. UG cell is taking all the efforts to keep the NKPSIMS& RC and LMH campus ragging free, along with the anti ragging committee of the college.

### Activities done by the Department :

- 1) Dean's Address was organized by UG Cell for First MBBS 2024 Batch on 25th October 2024 in Matoshree Auditorium.
- 2) Online Parent's Teacher's Meet was held for Second MBBS 2023 Batch on 28th April 2025.
- 3) Online Parent's Teacher's Meet was held for First MBBS 2024 Batch on 29th April 2025.

## POST-GRADUATE CELL

**Dr. M.V.Sawane - In charge PG Cell**

**Dr. Harsh Salankar, Dr. Sonali Khadakkar - Dy. In charge PG Cell**

A separate post graduate Cell has started functioning in this institute since 2005 with a focus on imparting value-based education with an objective to develop excellent qualities of an academician, a clinical specialist, a teacher and a researcher and with an aim to help students in their university related needs.

Post graduate courses were started at NKPSIMS in the Pre and Para clinical departments from the academic year 2004-05 and they were recognized by MCI in the year 2007. PG courses were then started in most clinical departments in 2007. Institute progressed rapidly with further increase in PG intake in almost all subjects during the last 4-5 years. Currently there are 143 MD/MS PG seats in the institute including M.Ch. in Plastic surgery and Pediatric surgery. All the PG seats are recognized by NMC and we are now in the process of increasing another 31 PG seats in clinical departments from academic year 2025-26.

PG Cell works very hard for successful preparation of various documents required for different inspections and for actual conduct of inspections. PG annual disclosure reports for all departments are uploaded on NMC portal. Admission procedure is conducted by the PG cell with submission of data to all the regulatory bodies. The Cell is trying its best to give hassle free administration so that students should not have problems with their eligibility in university as well as synopsis approval and other administrative works.

New entrants in this institute require introduction and orientation to the working conditions and training pattern and approach to the research, which is new to most of the students. A post-graduation orientation course for newly admitted students is conducted every year after completion of the admission process. This orientation program covers various important topics like code of conduct, timing and working pattern, routine OPD and ward working, working in specialized unit like ICU, blood transfusion, casualty working guidelines for hospital wastes segregation, standard operating procedure of ethics committee etc., Clinical research is an emerging area with enormous potential for the future development.

Government of Maharashtra's District Residency Program for PG students is also coordinated by PG Cell from year 2023-24, two batches of PG students have already completed their District Residential Program. The current batch of District Residency Program for the period May 2025 to April 2026 is underway.

PG Academic Committee is working actively to improve overall PG training at the institute. This committee plans the curricular changes for the improvement of PG results and is regulating inter-department postings and is responsible for arranging various skill impartment training programmers for PG students. PG results of the institute have improved significantly in the last few years.

To further improve the research output of the institute and increase the research experience of PG students, PPP (Poster, presentation, publication) model has been accepted in our institute.

Internal assessment pattern has also been improved with the inclusion of six-monthly theory examinations and improvement of PG logbooks.

PG Cell is committed to inculcate discipline in the students with the help of respective unit in-charges and Head of Departments. All the departments have always helped PG cell in this effort and we are very sure about their cooperation in future also.

Post Graduate Orientation Program was conducted on 15<sup>th</sup>, 16<sup>th</sup> & 17<sup>th</sup> April 2025.

## DIRECTORATE OF RESEARCH

### Appointment of New Director – 17th September

Dr. Ajeet Saoji was appointed as the Executive Director of the Directorate of Research NKPSIMS & RC and LMH on 17th September 2024. His leadership marks a new chapter in the department's continued commitment to academic and research excellence.

### Christmas Celebration- 24th December 2024

On the occasion of Christmas, the team from the Directorate of Research visited the Paediatric Department of our college, NKP Salve Institute of Medical Sciences & Research Centre, and Lata Mangeshkar Hospital to celebrate the festival with the admitted children. The event aimed to bring joy and festive cheer to the young patients. Gifts were distributed, and interactive activities were conducted, creating a warm and memorable experience for the children and staff alike.

### Guest Lecture on “Copyright and Patent”- 6th March 2025

The Directorate of Research organized a workshop on 'Patent and Copyright' on 6th March 2025 at Inspire Hall, NKPSIMS & RC and LMH. The session aimed to enhance awareness and understanding of intellectual property rights among faculty and students.

The distinguished guests for the event were Dr. A.A. Roy, Partner & Patent Attorney at LEX-REGIA, Advocate specializing in Patent, Trademark, Copyright, Design, and Geographical Indications (GI), Nagpur, and Dr. Ushoshi Guha, an expert in intellectual property law.

The workshop covered key aspects of patent filing, copyright protection, and the significance of safeguarding intellectual creations, making it a highly informative and engaging session.

### Research Interaction Session- 18th March 2025

A Research Interaction Session was organized by the Directorate of Research on 18th March 2025 at NKP Salve Institute of Medical Sciences & Research Centre and Lata Mangeshkar Hospital.

The session served as a platform for committee members of the Directorate of Research to discuss ongoing research activities, address challenges, and plan future initiatives. It aimed to enhance coordination and strengthen the strategic direction of departmental research efforts.

### Departmental Review Meetings 2025

**Duration: 20th March to 7th April**

The Directorate of Research initiated **Departmental Research Review Meetings** under the newly constituted Research Committee, beginning **March 20, 2025**, in the esteemed presence of the Hon'ble Dean.

All faculty members and postgraduate students were instructed to attend, with Heads of Departments (HODs) ensuring full participation. Before the meetings, each department received a list of ongoing research projects for review.

The committee evaluated departments based on the following key points:

1. Total number of faculty and postgraduate students
2. Ongoing research by faculty and PGs
3. Number of publications (Staff/PGs) in the previous year
4. Copyrights and patents filed last year
5. Grievances, if any
6. Departmental research co-ordinator details
7. Availability of Turnitin ID

These review meetings aimed to strengthen research progress, identify challenges, and enhance coordination across all departments.

## **IPR Workshop- 1April2025**

NKP Salve Institute of Medical Sciences & Research Centre and Lata Mangeshkar Hospital, Nagpur, has successfully conducted an online webinar on Intellectual Property Rights (IPR), Patent and Design filing on **1st April, 2025**. This webinar was undertaken by the **Directorate of Research (DOR)**, headed by Executive Director, **Dr. Ajeet Saoji** in coordination with IQAC, NKPSIMS & RC and LMH as per the directives of Honourable **Dean, Dr. Sajal Mitra**, NKPSIMS & RC.

A total of 290 faculty and students altogether registered for this free online webinar out of which 161 participants attended the webinar who were later provided with e-certificates issued by Government of India (Ministry of commerce and Industry, Department for Promotion of Industry and Internal Trade, Office of Controller General of Patents, Designs and Trade Marks).

## **Annual Staff Research Presentation and Competition - 24th April 2025**

The **Annual Staff Research Presentation Competition** was conducted on **24th April 2025** across all departments under the coordination of the Directorate of Research. The event provided a platform for faculty members to present their ongoing and completed research work.

The competition was held in the esteemed presence of the **Hon'ble Dean** and the **Director of the Directorate of Research**, who commended the participants for their valuable contributions to academic research.

Winners of the competition were:

**1st Prize** – Dr. Madhushree Shah (Department of Anaesthesia)

**2nd Prize** – Dr. Sonali Khadakkar (Department of ENT)

### Elective Posting

- As per the directives of National Medical Commission (NMC) regulations on Graduate Medical Education-2020 on modules for Electives, effective from the CBME batch (2019) and in accordance with the letter from Maharashtra University of Health Sciences (MUHS), the students of 2021 batch underwent Electives posting after the completion of Third Part-1 university examination in two blocks.

After a faculty development program on "Electives" the details regarding the electives available in various departments was displayed on the college website.

- Block 1 consisted of 13 modules from pre & para-clinical departments. Block 2 consisted of 19 modules from clinical departments. A total of 196 students of the 2021 batch who were pursuing Third MBBS Part-I were directed to submit their choice of electives for both blocks via a Google form. Allotment of electives was done in order of merit based on marks secured in the II MBBS university examination. Students underwent Block 1 posting from 11/03/2025 to 24/03/2025 and Block 2 posting from 25/03/2025 to 07/04/2025.
- Newer techniques of teaching learning like integrated teaching, role play, syndicate seminar, SDL etc are being inculcated in the various subjects and the teaching plan is as per schedule.

**Mentorship program:**

The program emphasized the importance of proper documentation of mentorship activities, fostering strong mentor-mentee bonding, enhancing communication, the need to improve interpersonal relationships, ensure professional conduct, and maintain a clear hierarchy in resolving issues. These steps are essential for building a structured, effective, and accountable mentorship system. In our institute the Mentor mentee program for both UG and PG is being conducted successfully. Three meeting have been conducted till date for the undergraduates in this year. The ratio of students is 1: 3 as suggested by NMC. The PG Gurucool mentor mentee meeting was conducted successfully and feedback was taken from both the mentor and mentee.

## Role of Pharmacovigilance Committee

With a number of new drugs being regularly approved for marketing in India, there is a need for a vibrant Pharma covigilance system in the country to protect the population from the potential harm that may be caused by some of these new drugs. Besides, with the patent regime coming in force from 2005, it is widely believed that India would become a centre for new drug trials. India being a vast country with multi ethnic population, it is necessary to have a viable Adverse Drug Reaction (ADR) Data capturing system. The India Central Drugs Regulatory Authority, therefore, proposed Pharmacovigilance programme to:

1. Contribute to the regulatory assessment of benefit, harm, effectiveness and risk of medicines, encouraging their safe, rational & more effective (including cost effective) use.
2. Improve patient care & safety in relation to use of medicines and all medical & paramedical interventions,
3. Improve public health & safety in relation to use of medicines,
4. Promote understanding, education & clinical training in Pharmacovigilance & its effective communication to the public

## ADRs Reporting:-

Pharmacovigilance Committee is functional in our hospital.

Adverse drug reactions (ADR's) reporting activities are carried out regularly.

Pharmacovigilance Committee - NKP SIMS & RC & LMH, Nagpur.

## Registered as ARs monitoring centre with

**Indian Pharmacopoeia commission (IPC),**

**National coordinating centre (NCC), Pharmacovigilance Programme of India (PvPI),** Ministry of Health & Family Welfare, Government of India, Sec-23, Ragnagar, Ghaziabad – 201002.

## Drug Audit Committee

Prescribing errors are common, they may result in adverse events & harm the patients. It is unclear how best to prevent them because recommendations are more often based on surmise than collected data. These include lack of training or experience, fatigue, stress, high workload for the prescribers and inadequate communication between healthcare professionals, Latent conditions include reluctance to question senior colleagues and inadequate provision of training. Prescribing errors are often multifactorial, with several active failures and error-provoking conditions often acting together to cause them. Seeking potential ways of reducing error, needs to be conducted, and Multifactorial interventions across many parts of the system are likely to be required.

## Role of “Drug Committee”

1. To monitor prescription practices.
2. To provide “Drug information services” in conjunction with the Pharmacovigilance program.
3. To maintain a collection of CIMS, MIMS, Pharmacopeias, E-journals.

## PURCHASE TEAM & PROCEDURE

In the procurement process, there are four major goals of purchasing: maintain the right supply of products and services, **maintain the quality standards of the operation, minimize the amount of money the operation spends, and stay competitive with similar operations**

The Purchase Committee being a bridge with users, purchasers & vendors, the task becomes even more difficult in finalizing the right product or service. The Purchase Committee has procured machines & services of more than Rs. 25 Crore in the last financial year (2024-2025).

## Penile reconstruction done after 9.5 hours long plastic surgery

1st incident in Central India, patient had lost penis due to cancer

LOKMAT NEWS NETWORK NAGPUR

Plastic Surgeons of Lata Mangeshkar Hospital, Hingna Road, Nagpur have set a major milestone by reconstructing the entire penis in a single stage for the first time in Central India for a young male who had lost his penis to cancer 8 years ago. This entire surgery took the team of doctors over 9 hours to complete.

For penile structures, the shaft and urethra (urinary passage tube) were reconstructed on patient's forearm and then transferred to public region. The surgery included the joining of microvascular vessels for blood supply and nerves to provide full sensations and thus a functional organ.

Doctors along with the patient at Lata Mangeshkar Hospital.

### The team

The team comprising of plastic surgeons Dr Itendra Mehta, Dr Sameer Mahalkar, Dr Ashwini Panditrao, Dr Dev Patel, Dr Ashish Munde, Dr Karan Jale, Dr Pradip performed this surgery under the guidance of dean Dr Sajal Mitra, Dr Anjali Shure, Dr Madhusree Shah, Dr Ketaki Marodkar, Dr Rachana Naitam and Dr Gunjan provided anesthesia for the procedure. Medical superintendent and vice dean Dr Nitin Desvathale provided all logistic support.

### Microvascular surgeries

Such surgeries are called microvascular surgeries which require state-of-the-art operative microscope which is available at Lata Mangeshkar Hospital. Apart from cancer such reconstructive procedures can be beneficial for patients with traumatic (accidental) amputation of penis and gender affirmation surgeries (sex change surgeries), said dean of Lata Mangeshkar Hospital Dr Sajal Mitra.

### Complicated process to join blood vessels

The most complex procedure in this surgery was the connection of two-millimeter microvessels, i.e. small arteries and veins with an internal diameter of 1 to 6 mm. The team from the plastic surgery department successfully performed it with the help of their experience and expertise."
