### Report for External Examiner Feedback –2024-25 Examination

An external examiner feedback was taken MUHS university practical exams conducted in various years of MBBS as well as Postgraduate level. A Google form was created for the same and sent to all the external examiners. A total of 59 examiners responded. As per the feedback received in the form, following information was generated:

The curriculum content and the pattern of practical examination were reported to be very good by 69.5 %of examiners. The way in which the examination was conducted was found to be very goodby 83% examiners. The facilities and infrastructure at NKPSIMS & RC and LMH like food, accommodation, conveyance arrangement were found to be very good.

The external examiners also mentioned certain good practices noticed by them during the examination like the exams are being conducted as per CBME pattern, good working environment and co-ordination in the Dept, Number of cases were adequate, Clinical material was adequate, and exams were systematically done etc.

Inputs such as more practical and surgical exposure should be given to the students, variety of cases should increase in some departments during post graduate examinations.

59 responses

### Comment on the facilities and infrastructure at NKPSIMS & RC and LMH

 Copy

### Mention overall good academic practices you noticed during the examination

59 responses

As per cbme pattern

Good

Satisfactory

Yes

Very good

As per cbme pattern

Fair conduct of examination with good clinical material and sufficient time given to students.

Well organised exam with all proper documentation

Excellent teaching and well trained students

Conferences attended by the residents

Clinical material

Good Working Environment co-ordination in the Dept

As per curriculum

Cases given were good

Daily teaching and clinic activities

Regular PG teaching, Presence of all faculties and good Faculty- Resident relations

Lot of effort went in doing arrangements for the exam

Good communication skills of students, may be due to ATCOM modules..

Over all conduct was good

Excellent

Availability of adequate clinical material

Specimens mounting , histopathology slide marking, clinical tray

Fair practices

Good Clinical material

Excellent teaching staff

Dedication of teachers and students

Nice pattern of examination

Thorough work up by faculty

Great academics

Discipline

Overall academic activities were conducted regularly.

As per MUHS PROTOCOL

Everything

Exams conducted as per muhs protocol with dignity

Good academics

Well diciplened students

Number of cases were adequate

Clinical material adequate

Theory and Practical teaching is good.

Strict confidentiality and transparency was maintained.

Teaching schedule is good

OSCE

Exam as per university and nmc norms

Nice arrangements

Clinical skill examination was conducted very well in OSCE pattern

Fair enough

Excellent quality of the examination

Systematically done

They were adequate!

As per syllabus and curriculum.

## Suggest academic areas of improvement in the present exam (if any)

59 responses

No

None

Nil

Maintain the level of examination.

Pay attention to Communication skills of the students

All is good

More cases can be kept

Perfectly alright..

Post graduates need to do better in basic academics, more clinical exposure needed.

Need to be more organised

Moot court exercises may be introduced. Dept may be provided with good practical hall.  
Students find it difficult to do table exercises.

Can keep more objectivity

Scope for improvisation in academic pattern is there always

Nil

No suggestion

Need to improve in neoplasia nomenclature

Clinical Skills

Overall good

Variety of cases should increase

Exam based training

Tables can be more upgraded

X rays, living Anatomy

Exam should be conducted in 2 Halls

Practical and surgical exposure should be given to the students.

Everything apriable

Ward rounds may be considered

More Number of x rays required

Number of Long cases variety can be increased

Not Applicable

Continue the same

CT scan reading

Needs a practical hall

Good practices.

Fair conduction

Basics knowledge -improvement

Every thing was good

NA

More diverse clinical material

More exposure to students
