DEPARTMENT OF GENERAL MEDICINE Organ Donation Day Celebration

As part of Organ Donation Awareness Week (3rd –13th August), an awareness programme on Organ Donation was organised at N.K.P. Salve Institute of Medical Sciences & Research Centre and Lata Mangeshkar Hospital, Nagpur, on 7th August 2026. The programme featured lectures by eminent nephrologists:

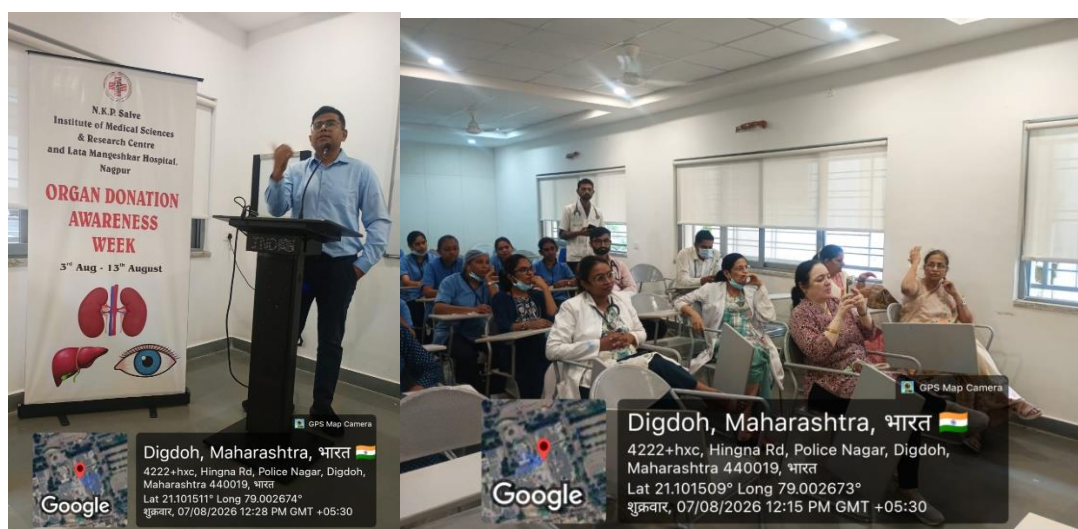

- Dr. Mohit Kurundwadkar 12:00 noon to 1:00 pm, session for all Nursing staff
- Dr. Nilesh Raghorte 1:00 pm to 2:00 pm, session for the general public

The programme aimed to educate healthcare professionals, hospital staff and the general public about the importance of organ donation, the process of organ transplantation, and the significant role that organ donation can play in saving and improving lives.

The Organ Donation Awareness programme was an important initiative to promote awareness and encourage positive attitudes towards organ donation. The informative lectures by the nephrologists helped reinforce the message that one donor can potentially save or improve multiple lives.

The programme successfully highlighted the importance of creating awareness among healthcare workers as well as the general public and encouraged everyone to consider organ donation as a meaningful contribution to society.

“Donate Organs – Give the Gift of Life.”

Dr. Tanuja Manohar
Professor & HOD
Dept. of General Medicine
